DENVEGA BEAUTY WAREHOUSE

DenVega Beauty Warehouse offers unique anti-ageing skin treatments that incorporate advanced technologies to assist in the fight against ageing.

These advanced technologies are specifically designed for facial rejuvenation – a wonderful non-invasive alternate treatment to surgery.

Our specialised treatments are designed to improve the appearance of fine lines, wrinkles, firmness and tone of the skin.

Call us if you have unsightly vascular blemishes such as skin tags, spider veins, cherry angiomas and cystic acne, we have advanced non-invasive treatments to help you.

Finally, cosmetic teeth whitening has never been so simple or convenient.

We offer the Brite White Teeth Whitening System – a self-administered teeth-whitening application that follows the Council for Cosmetic Teeth Whitening best practice and code of ethics.

We are pleased to offer these advanced technologies to our clients and provide them with effective treatments that offer visible lasting results.
